# Information for grant applicants

## 1. Introduction

The *Strategic Voluntary Youth Work Organisation (SVYWO) Grant* will provide core funding to support voluntary youth organisations, to provide and develop quality Youth Work opportunities for young people in Wales aged 11 to 25. This grant could provide;

- general core cost support i.e. support to an organisation's national infrastructure costs in Wales (it is up to the organisation which part of the infrastructure you apply for core funding for); and
- stability to organisations to enable good interventions in Wales to continue

Applications are sought from both national voluntary organisations that actively work in a minimum of 18 local authority areas, and smaller specialist targeted youth work services aimed at those with protected characteristics.

Applicants should ensure they read this entire *Information for Grant Applicants* document, including the annexes, before making an application and ensure their application demonstrates how young people will be supported through youth work approaches as a result of any funding received.

### 3. Duration and level of grant aid

Subject to the budget review, the SVYWO grant will run from 1 April 2025 and end on 31 March 2028, and it will be broken down as below:

- The proposed budget for the SVYWO 2025/28 round is up to £1.1m per annum.
  - Of this funding £900,000 will continue to be used as previous for national voluntary youth organisations delivering youth work and operating in 18 or more local authority areas; and
  - £200,000 will be allocated to smaller youth work organisations who may specialise in supporting young people with a protected characteristic or from disadvantaged socio-economic background.

The breakdown above may be flexible depending on number and quality of applications received, however the overall total budget for the funding round will remain the same.

## **7. Types of activities that can be supported with the SVYWO grant**

This grant is for core costs. Core costs are to provide organisations with stability in Wales, thus enabling Wales to keep quality youth work interventions. Core costs (also known as running costs) are the regular day to day unrestricted activity costs which are necessary for an organisation to

operate. Typically they include overall management, administration and support and premises costs that relate to the whole organisation, rather than to individual projects. These costs are often also called indirect, central or support costs.

Typical core/running costs include:

- salaries of core staff such as managers, administrators, finance staff, cleaners and caretakers;
- meetings of the trustees or management committee and their expenses;
- rent, heating, lighting, maintenance and insurance (up to a maximum of 50% of the total funding requested);
- administration and office costs, e.g. stationery, phone bills, postage, photocopying; and
- fundraising for the supporting costs for the organisation.

## 8. Completing your SVYWO application

Organisations completing the application form for the SVYWO grant funding will be required to provide full details how their bid will meet the range of criteria identified in the application form.

The assessment panel will be looking for **evidence** against the following areas:

- Section A: Information in relation to your organisation/s, including the name and contact details of the person leading on this bid. This section will include details of the eligibility criteria. If you are submitting a joint bid, funding will be provided through the lead organisation. Details are required of all organisations who are part of the application, however key personnel details are only required for the lead organisation, however any conflicts should cover both.
- Section B: Your Application details and purpose. This includes:
  - an overview of your proposal including specific targets that will be achieved and monitored;
  - evidence of your eligibility to apply for SVYWO funding;
  - evidence in relation to meeting the language needs of young people; and
  - evidence in relation to ensuring the quality of your provision.
- Section C: Managing your proposal. This includes:
  - how you will monitor and evaluate your progress, demonstrate achievements, and mitigate any identified risks. You should include details of how young people will feed into your evaluations, and any monitoring systems/tools you will use.
- Section D: Budget information. This includes
  - detailed information about funding sources, including funding that you are seeking from the SVYWO grant;
  - evidence in relation to value for money, the drawing in of additional resources; and
  - sustainability

You will also need to give an outline budget breakdown, taking into consideration that this is a three year funding bid and accounting for any increments that may occur during this timescale

Consideration will also be given to the viability of your organisation and proposed activity (including financial viability).

**Additional information required in support of your Application Form.**

The application includes other areas that you are required to populate, including the provision of specific documentation (Section E: Advance payments and required documentation)

These include:

- Confirmation if payment in advance is required.
- An organisation chart showing all posts and which also identifies those posts for which grant funding is sought.
- A copy of your Equality Policy.
- A copy of your Safeguarding Policy.
- A copy of your Welsh Language Policy.
- A recent newsletter – if applicable.

Section F of the application form asks you to make relevant declarations and confirm your understanding.

**The closing date for receipt of the Application form** for the 2025 - 2028 SVYWO funding round is 12:00pm, 8 November 2024. Any application form received after this date and time will not be considered. You must submit your application form electronically to: [youthwork@Gov.Wales](mailto:youthwork@Gov.Wales) copied to Bethan.Thomas2@Gov.Wales. All parts of your application form must be with us by the above deadline. Incomplete applications will be rejected.

We cannot accept responsibility for application forms not received by the closing time and date. You may wish to set up an e-mail receipt of delivery.

Applications will be considered by a panel consisting of Welsh Government officials, and Youth Work field representatives.

The panel will assess the applications and supporting documentation against the criteria listed above before making their recommendations to the Cabinet Secretary for Education.

Grant applications will be scored a rating of 1 – 4 against the following criteria, with 1 being poor and 4 being excellent:

- eligibility of organisation
- evidence of how organisation is working towards the delivery of youth work to young people
- how the organisation meets the language requirements, in particular the Welsh language
- how the organisation will promote inclusion and equality
- how the organisation is working towards the principles of the Quality Mark for Youth Work in Wales
- how young people's progression through accreditation / certification will be supported and evidenced

- value for money
- sustainability

As this is a competitive grant, we are unlikely to be able to offer a grant to all applicants. If the total funding amount applied for by all applicants exceeds the grant funds available, the scores awarded by the panel will be taken into account

#### **Notification of Grant Allocations**

Unsuccessful applications will be notified by email on the email address provided as part of the application by 31 December 2024 of the reason(s) why they have not been successful.

Successful applicants will be notified by email on the email address provided as part of the application by 31 December 2024. Soon after they will receive a grant offer letter. All offers of grant will be subject to the Welsh Government's standard terms and conditions of the grant.

### **Salary Costs**

Staffing costs are eligible for personnel directly engaged in project delivery, whether full or part time. Applicants must provide a rationale for the basis of costs in the application form. Staff costs include gross salary, employers' national insurance contributions and may include employers' pension costs where there is an established pension scheme which applies to all staff.

Reasonable costs arising from the contract of employment including expected increases in grade or pay scales can be included as eligible costs in the application.

Applicants should identify the most appropriate method of apportioning the staff costs and provide a rationale for the basis of the costs in the application form.

Staff recruitment costs may be eligible.

### **Sick, Maternity, Paternity or Adoption Pay**

Sick, maternity, paternity or adoption pay may be eligible if it is in line with the organisation's staff policy or contained within the individual's contract of employment. Statutory sick pay or statutory maternity pay recovered from HMRC, even if it is not actually recovered by the applicant, is ineligible. The value should be off set against the value of staff costs applied for. Applicants must provide a rationale for the basis of costs in the application form.

Costs relating to the provision of temporary staff to cover for staff on long-term sick leave or maternity leave during implementation may be considered eligible project costs, however, no additional SVYWO funding will be provided by the Welsh Government. These costs will be considered on a case-by-case basis by the Welsh Government.

### **Travel & Subsistence Costs**

Travel & Subsistence costs can be considered eligible where they relate only to the SVYWO proposal and are considered reasonable by the Welsh Government. Applicants must provide a rationale for the basis of costs in the application form.

Daily allowances and accommodation costs will need to be in line with the employing organisation's standard policy in respect of subsistence. The Welsh Government will consider these costs during the project assessment to ensure reasonableness.

following hyperlink: Use of vehicle: mileage rates - [Travel — mileage and fuel rates and allowances - GOV.UK \(www.gov.uk\)](#)

Only staff training costs for training that relates to the acquisition of **specialist knowledge** to enable them to effectively deliver the SVYWO project should only be applied for. The cost of providing a training provision for staff personal development is ineligible. Applicants must provide a rationale for the basis of costs in the application form.

Training costs for the Level 2 or 3 youth work qualification will not be considered as these courses can be accessed through a number of training providers.

Where consultancy fees and contractors' charges have been subject to an approved tender process, the market rate resulting from that exercise may be included in the application provided the original tender is no more than 3 years old.

Consultancy fees could include legal, accountancy and audit services which are required for the delivery of the project.
